Nothing herein shall be interpreted as creating any right or benefit not duly authorized as provided by law, or which is contrary to any law, policy, rule or regulation of the Commonwealth of Virginia or of the State Board for Community Colleges. Nothing herein shall be interpreted as restricting the authority of the State Board for Community Colleges conferred by the Virginia General Assembly.

The statements and provisions in this catalog or the application for admission are not to be regarded as a contract between the student and the college that cannot be recalled. The college reserves the right to change, when warranted, any of the provisions, schedules, programs, or fees, as might be required. Supplements may be issued to this catalog as considered necessary by the college.

It is the policy of Southside Virginia Community College to promote equal opportunity in educational programs and activities, admission, and employment without regard to race, color, sex, national origin, handicap, sexual orientation, political affiliation, or veteran status. Inquiries concerning the affirmative actions policy should be addressed to Southside Virginia Community College's Affirmative Action Officer, Peter Hunt, whose office is located on the Christanna Campus at 109 Campus Drive, Alberta, Virginia 23821 (434) 949-1005 or the John H. Daniel Campus at 200 Daniel Road, Keysville, Virginia 23947 (434) 736-2015.

SVCC is an Affirmative Action/Equal Opportunity Institution.

President's Message

Southside Virginia Community College, a comprehensive community college, has been providing quality education to the people of Southside Virginia for over 40 years through a wide range of post-secondary programs which includes university parallel, technical, vocational and community service programs. The college's service area, the largest geographical area within the VCCS, includes the counties of Brunswick, Buckingham, Charlotte, Cumberland, Greensville, Halifax, Lunenburg, Mecklenburg, Nottoway, and Prince Edward and the city of Emporia.

Recognized throughout the Commonwealth for the leadership it has provided in the development of innovative programs, the college takes pride in its community-based education approach to meeting the needs of service area constituents. This can best be demonstrated by the college's unique and highly successful Honors Program; its many off-campus technical centers; its leadership in Center for Workforce Development; its Dual Enrollment Program (largest in the Commonwealth); its Truck Driving, Heavy Equipment, and Diesel Tech Training Programs and its involvement in the Southside Governor's School; its leadership in the development of the Virginia Master Teachers' Seminar. The Wrenn Campus Without Walls pioneered the concept of outreach centers that has led to the Lake Country Advanced Knowledge Center in South Hill, the Southern Virginia Higher Education Center in South Boston, the Estes Center in Chase City, the Occupational/Technical Center at Pickett Park, the Pre-Engineering Dual Enrollment Program at the Nottoway/Amelia Vocational Center and The Cumberland Center. The college is famous for taking education to the people and offers courses in 41 off-campus locations. The college pioneers the experimental Middle College concept, in partnership with SCORE with four sites.

Southside Virginia Community College is a dynamic institution, always developing and changing to meet the new and challenging needs of a complex society. Our future is interwoven with the development of our community; as our service area communities grow, so will we. Through its participation with the community, the college will play an even greater role in the development of the business and intellectual community of Southside Virginia. We are truly a college of and by the community.

The college is proud of the quality instruction it can provide to a very diverse constituency in both traditional classroom environments and through distance education options. Southside Virginia Community College offers numerous classes through an extensive two-way interactive audio and video network and the cyber college. The college has a teaching staff of highly professional educators who have as their major focus the success of their students within a holistic environment. They develop the intellectual, emotional, and physical realms of their students and give them the coping mechanisms for success in a chosen profession and in life. Small classes and a friendly atmosphere provide a setting that will help students realize their full human potential. As the college works through its faculty to develop its most precious resource, the human resource, our community will grow and prosper because of the skills and talents developed in the educational environment.

President
John J. Cavan
