

# Roy Wine: GED® Success Story

Passing the GED® test paved the way for Roy Wine's enrollment in college. A home-schooled student, Wine's mother passed away before he finished his education. He took the GED test as a tribute to her. Southside Virginia Community College's Middle College offered GED classes free of charge along with free GED testing. Since he passed the tests on the first try, he decided to attend SVCC classes to continue his educational career. He will transfer to a four-year institution and possibly, become a school teacher.
